Stronger Together Network Northern Ireland

The membership is **free** and you would enjoy a range of benefits designed to help you connect, grow, and make a greater impact in your community.

Benefits:

- ☐ Members receive **priority access** to promote their events, workshops, training opportunities, cultural celebrations, and other important news through our **weekly e-alert**. This e-alert reaches more than 300 subscribers across the region and is widely shared among organisations working with diverse communities, helping to increase visibility and engagement for your activities.

- ☐ You will also be among **the first to hear about** community development programmes, funding **opportunities**, training initiatives, and partnership projects that can support the growth and success of your organisation and the groups you are working with.

- ☐ We value the voices of our members and regularly seek their views on how we can better support their work. Through the Network, we also **advocate** on behalf of our members and help ensure that the needs and experiences of diverse communities are represented in discussions with key decision-makers.

- ☐ Membership gives you access to a supportive network of individuals, community groups, and organisations who are committed to building stronger, more inclusive communities. We would be delighted to welcome you to our **events throughout the year**, including our annual conference, which takes place early next year. You can check out **the recordings/reports from the previous ones** to get an idea of the themes explored so far.

- ☐ Your organisation will also be featured on our website in the **Members' Profiles** section. This provides an opportunity to **showcase your organisation's work, raise your profile**, and help others across the sector learn more about the services, activities, and support you offer. (Note: applies if you registered your organization as the Network member)

Together we are stronger!
